

CLIENT TESTIMONALS

"Averett & Associates PC is a knowledgeable & friendly group. They freely answer all questions & concerns in a timely manner. They work hard to provide correct and accurate accounting using the latest IRS "guidelines." We are extremely satisfied with their services."

-Bruce and Shirlynn Gildea

"We are absolutely satisfied with the services rendered by Averett & Associates. The constant communication by phone, email and standard mail leaves very little room for misunderstandings. Averett & Associates are looking out for our company's best interest at all times. We are very satisfied with their services."

-Petroleum Installation Specialists, LLC

"The firm is not just an accounting firm doing your books."

The firm became a partner, watching out for the success of our business and provides satisfaction guaranteed services."

We do the “dirty” work ...

so you can do what you love!

Small Business Frustrations

When you began your business you had dreams of doing something you love that would make you happy.

Then you realized that actually running the business was about making everyone else happy: the federal government, the state government, the bank and your employees. But what about your happiness?

To run a business is often more difficult and time consuming than expected and has many more costs and frustrations as well. We're here to help you manage those difficulties, costs and frustrations by letting you focus on the growth of your business.

Rather than focusing on the daily grind, risking business growth due to distractions and time constraints, we want you focusing elsewhere so you can close deals, sell your product and help your customers.

We take care of the dirty work for you, so you can get back to the job of running your business and generating profits!
