About Me and My Practice

I have been in the Accounting field for over 25 years. In 1994, while in Chicago, IL, I started and operated an accounting and tax service firm helping a variety of small businesses with accounting, bookkeeping and tax issues.

Today as a certified QuickBooks Pro Advisor, I provide accounting and bookkeeping assistance to various businesses throughout central Arkansas. I also prepare tax returns for individuals and small businesses as well. I enjoy working with small businesses whose goal and intentions are not just to make money, but to make our society a better place.

SERVICES OFFERED:

One-on-One Training
Technical Assistance &
Troubleshooting
